

# East Vincent Township Environmental Advisory Council Agenda

November 8, 2023, 7 PM

1. Call to Order

2. Approval of Minutes of October 11, 2023

3. Old Business

A. Update on Clean Energy Initiative.

Molly sent an email to EAC members. Please read it before coming so we can make a motion to recommend this plan to the BOS.

B. Data Center Ordinance

For now we should recommend that our ordinance require LEED Certification on all industrial buildings. Doing that will force low light pollution, recycling, low voc build products, reduced energy consumption, etc.

4. New Business

Michele Adams will lead an exercise on performing an environmental review of development plans in the context of what to look for in the plans and how they follow (or not) our ordinances. Michele will talk about proximity of wetlands and soil types and will use the Ruth Farm development plans to illustrate this process. It will be good for the EAC to have a process for looking at plans and making recommendations to the township.

5. Public Comment

6. Adjournment
