Re: Annual Groundwater Report
Bartons Meadows WWTP
Permit No. 1588442
East Vincent Township
Chester County

Dear Mr. Zienkowski:

Thank you for the submission of the Annual Groundwater Report for the above-referenced facility. The report was received by the Department of Environmental Protection (DEP) on June 12, 2023.

As a result of our review, the DEP has concluded that the Annual Groundwater Report is complete, and the facility should not adversely impact groundwater resources meant to be used as a water supply.

You are reminded that your next Annual Groundwater Report is due to the DEP within 28 days of the anniversary date of issuance of your permit unless your permit is due for renewal. In this instance, a Comprehensive Groundwater Study should be submitted in support of your permit renewal instead of an Annual Groundwater Report.

Should you have any questions, please contact me at 484.250.5180 or at the address located in the footer.

Sincerely,

A handwritten signature in black ink, appearing to read "Kirsten O. Moore".
